

Hazard Hut

When floor space is at a premium indoors, take your hazardous materials outdoors with the Hazard Hut. One-piece molded 100% polyethylene construction means there are no joints or seams to leak. Molded-in side vents reduce fumes, while UV protection makes it a durable performer outside. Removable grates make it easy to clean and the 72-gallon sump capacity ensures leak and spill containment. Security is no problem. The big double doors provide easy access for up to four 55-gallon drums while their double-wall construction and heavy-duty hinges and lock latches keep contents secure. Four-way forkliftable design makes the Hazard Hut easy to handle.

Massive sump has removable structural foam grates for easy cleaning.

Molded-in vents help reduce fumes and offer tie-down capability.

The solution to your indoor storage problem is outdoor containment

Poly Ramp

Loading the Hazard Hut is easy with our Hazard Hut Poly Ramp. With integrally molded handles and 5" polyolefin wheels, you just roll Poly-Ramp up and start rolling barrels in.

Poly Ramp Features:

- 10° slope allows for easy loading
- Improved ribbed, non-skid surface
 - 100% Polyethylene
